# Clicker Quiz

How will your Boss respond when he or she reviews this method in your Sack class during your first week as a highly-paid software developer?

```
1  public boolean contains(E item)
2  {
3      boolean result = false;
4
5      if (items.contains(item) == true)
6      {
7          result = true;
8      }
9
10     return result;
11 }
```

- 1 Nicely done! I'd like you to mentor some of our senior developers.
- 2 Looks OK.
- 3 You are fired.
