Interaction Design Document v2
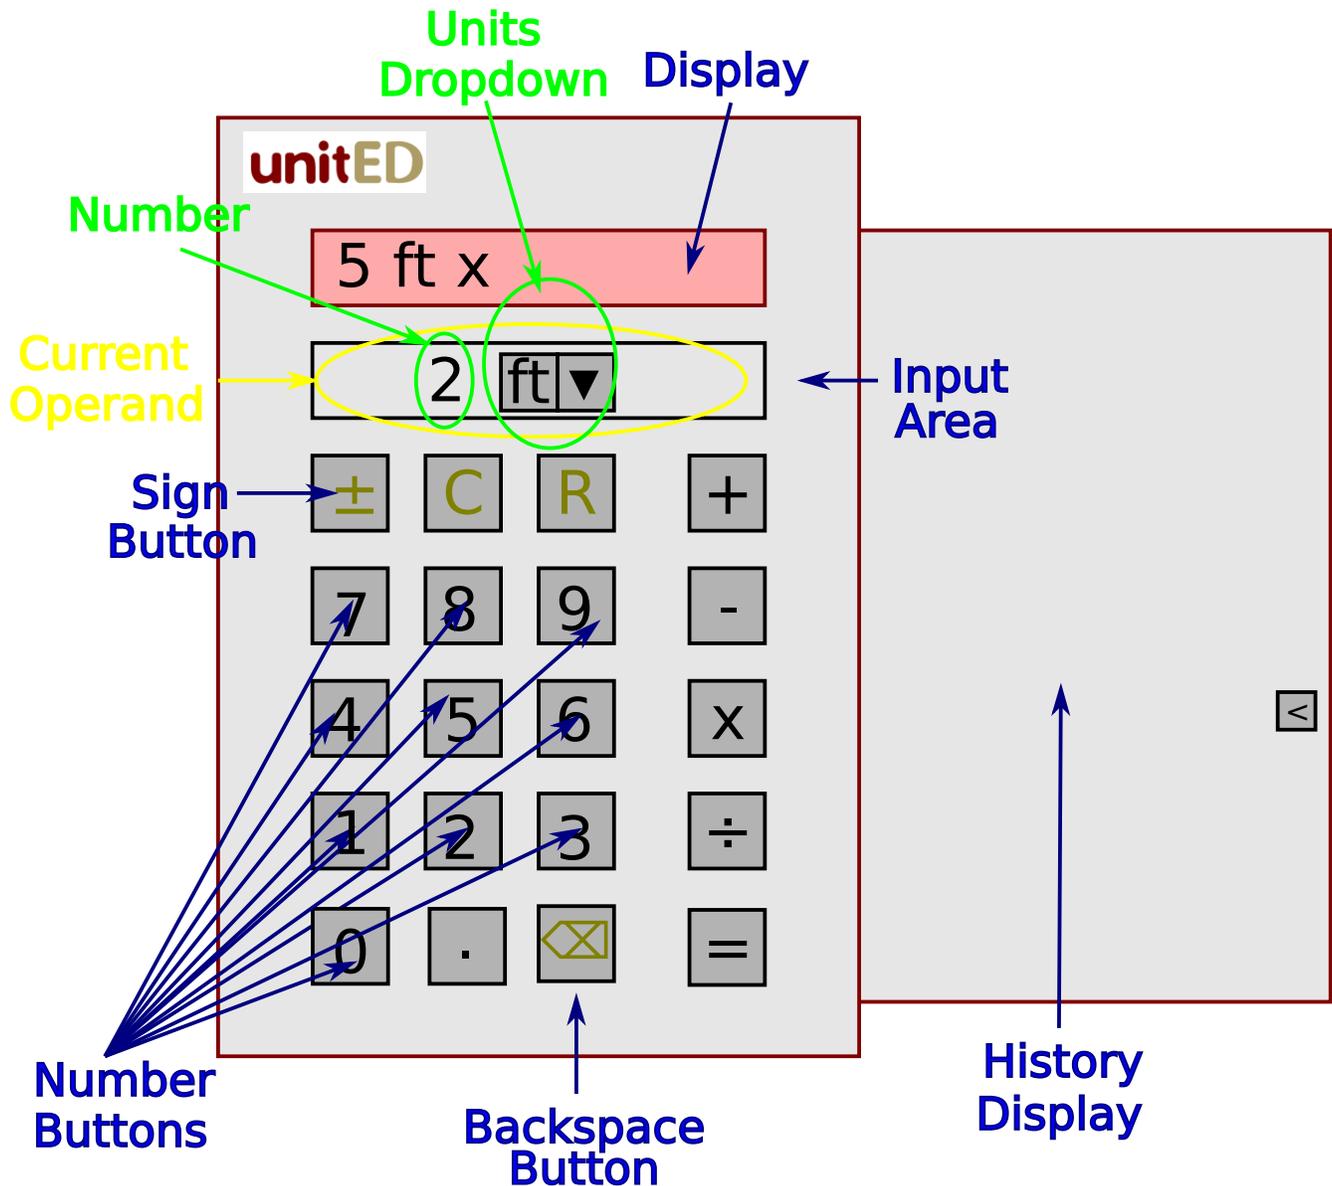

The GUI must now look something like the following when the component containing the history display is open:

Units Dropdown · Display · Number · Current Operand · Sign Button · Number Buttons · Backspace Button · Input Area · History Display

5 ft x

2 ft ▼

± C R +
7 8 9 -
4 5 6 X
1 2 3 ÷
0 . ⊗ =

<

The History "Slide-Out"

The main calculator body and the history "slide-out" must hide the desktop beneath it. The space above and below the history "slide-out" (which is white in the wireframe above) must not hide the desktop.

The "slide-out" must operate as follows:

- Clicking on the > must open the history display.

- Clicking on the < must close the history display.

- The opening and closing of the history display must be animated.

Menus

The File menu must now include the following items:

File
   Print Session

   New Calculator

   Exit
