

free_bookz_player (v3)

Overview

The `free_bookz_player` is a system that displays `bookz` interspersed with `adz` on the user device.

Requirements

The new requirements for version 3 of the `free_bookz_player` follow.

1. `adz` must be displayed for the entire time that the `bookz` is being displayed.
2. `adz` must be retrieved from a central server.
 - 2.1. `adz` must be retrieved using the `adz Transfer Protocol (aTP)`.
 - 2.2. If an `adz` is not received within 2 seconds of the request being made, an `adz` for `zmedia` must be displayed for 5 seconds (with the text “`zmedia: For all of your media needz`”).
