

CS 101 Final Project

Team Name: _____

Grade Descriptions

- A = Excellent; high degree of originality/creativity
- B = Good; reasonable degree of originality/creativity
- C = Acceptable; some degree of originality/creativity
- D = Deficient; clearly lacking in originality/creativity

1. Elevator Pitch

- *The response effectively articulates the purpose of the program and its connection to the area of focus.*

2. Demonstration

- *The program is complex and demonstrates use of course content (clear connection to computer science).*
- *The program demonstrates creative use of sequencing, decisions, and loops (students describe the algorithms).*

3. Code Review

- *The program is organized well using multiple functions or modules (uses abstraction to manage complexity).*
- *The source code is neatly formatted, and each major block is commented (students explain how the code works).*
