- syllabus and what a week looks like

# CS 101: A Typical Week

## MONDAY

Read assigned chapters in textbook

if applicable:  
install software

## TUESDAY

### Class

- short lecture
- intro software/lab
- exercise group work
- Q&A

Review videos, assigned content, and notes

**Exercises A  
due at 10pm**

## WEDNESDAY

Work on lab and Exercise B. Bring questions to class.

## THURSDAY

### Class

- short lecture
- lab w/ Q&A
- exercise group work
- Q&A

Review readings and notes, finish exercises

**Exercises B  
due at 10pm**

## FRIDAY

Review readings, notes, take quiz to test knowledge

**Lab  
due at 5pm**

# Quick Tour of Resources

CS 101 @ JMU

# Overview of Course

---

## 1. Class website

**Static Course Information:**

Syllabus, all course content, & assignments

## 2. Canvas site

**Dynamic Course Information:**

Submit assignments & see announcements

## 3. Class Time

**Mini Lectures, Guest Speakers, and Group Activities:**

Participation is KEY! Take notes, ask questions, and engage in the content.

Maximize this time to get a jump start on assignments.

## 4. Office Hours & TAs

**One-on-one support:**

We are here to support your learning! Come ask questions!

live here

### Meet the Team

Welcome to CS 101! This course is a rigorous overview of computer science, designed for majors and non-majors alike. We invite you to learn how computers work under the hood, explore the inner workings of the Internet, develop creative thinking and problem solving skills, and analyze the impacts of computing technology on society. Although the subject matter is primarily theoretical, we will study it in ways that will help you to develop practical skills. We promise to create a collaborative, team-based learning environment that encourages questions, provides opportunities for significant learning, and actively involves you in each class meeting. Weekly activities will include group work, mini-lectures, hands-on labs, and more. We hope you will learn how to think like a computer scientist, find out what the science in CS is all about, and take your computer literacy to a whole new level.

 [Intro Videos](#)

 [Exercise01](#)  [Unit01 Exercises](#)

### Practice

[Lab01](#)  [Lightbot puzzle solving](#)

Due tonight!

Unit 2: Data Storage Aug 30 – Sep 03

Unit 3: Program Execution Sep 06 – Sep 10

Unit 4: Operating Systems and Computer Networking Sep 13 – Sep 17

Review Units 1 through 4 Sep 21 – Sep 25

Exam 1: Units 1 through 4 Sep 25 – Sep 27

Unit 5: Information Security Sep 27 – Oct 01

# Canvas Navigation

The sidebar contains the following items from top to bottom:

- Account icon (person silhouette)
- Account text
- Dashboard icon (speedometer)
- Dashboard text
- Courses icon (book)
- Courses text
- Calendar icon (calendar)
- Calendar text
- Inbox icon (envelope)
- Inbox text
- Help icon (question mark)
- Help text

Callout boxes:

- "Your picture goes here!" points to the Account icon.
- "See **all** due dates here" points to the Calendar icon.
